# SPORTING PARADISE

## THE EXCLUSIVE SNAKE RIVER SPORTING CLUB OPENS ITS DOORS TO GUESTS.

To partake in the beauty and spectacular sporting options at **SNAKE RIVER** in Jackson Hole you've needed to be an owner or club member. This winter Snake River Sporting Club officially opened its doors to guests for short-term and overnight rentals on property. The options available range from a rustic sporting cabin with expansive views overlooking Wolf Mountain and the famed Snake River to designer-furnished, 4-bedroom Tall Timber Cabins.

While there, sign up to take part in the Orvis Fly Fishing School, play the new Tom Weikopf-designed masterpiece course opening in May, hit the trails on a horse from Snake River Sporting Club's Equestrian Center, take the river by raft or kayak, and hike and bike on the property's extraordinary trails.

Overnight rates start at \$500 per night for the Sporting Cabin and \$5,000 per week in the Tall Timber Cabins. [www.snakeriversportingclub.com](http://www.snakeriversportingclub.com)

## Silicon Valley Takes Off

Just in time for Super Bowl 50, Silicon Valley unveiled a new state-of-the-art private jet facility. Both the Denver Broncos and the Carolina Panthers successfully parked their massive jets inside the new **Signature Flight Support 60,000-square-foot Hangar at Mineta San Jose International Airport** in February. Since then there has been a steady stream of celebrities and global powerhouses landing on the runway and parking their planes, temporarily or full-time, in any one of the other six hangars. Signature Flight Support San Jose is big, really big. In total, the facility spans 29 acres with 18.5 acres of ramp space and features 240,000 square-feet of hangar space, including one 60,000-square-foot hangar capable of housing two 767 aircraft simultaneously!

In addition to the hangars, Signature Flight Support includes an elegant lounge with all the amenities a private jet customer requires. But, of course, the beauty and benefit of private jet travel is time savings. Alas, most passengers spend fewer than five minutes in the lounge, heading right on board their planes. Now, that's the ultimate luxury.
